## THE QUESTION OF "HELP."

Referring to the present movement against the Chinese, the San Francisco

While there are individual cases in which employers will be subjected to some inconvenience, the public loss arising from such will be a trifle in comparison to the great results certain to flow from the employment of white labor in place of Chinese. There is probably not a state in the Union of about the same population as California in which so large a proportion of the whole live in idleness. Boys and girls grow up without a thought of doing anything for their own support.

All which is very true. But if it is expected that the boys and girls of California are to take the places of the Chinese in the hop-fields, the orchards, the vineyards and the house, expectation will be doomed to disappointment. That is one of the things the Chinese evil has done for us; it has demoralized the industrial sentiment of the people. True, the neglect of parents, our fast and false methods of living, the our fast and false methods of living, the light of the content of the people. True, the neglect of parents, our fast and false methods of living, the struggle for genteel positions, the diffi-culty of getting apprentices into the trades, the limitation put upon labor by machinery—all these have contributed to make the rising generation one of nonworkers. But quite as much has the presence of the Chinese contributed to a like result. They have made it "disreputable" in a large degree to engage in a great many vocations. Of course, this disrepute W. Peckhain, William Procest, Robert Enery, U. McCann. Siskiyou - E. F. Dinsmore, L. Huseman, R. H. Campbell, I. S. Matthews. Tehama-W. H. Dabney, L. V. Hitchcock, H. C. Wilson, M. Manasse, I. B. Ashbrook, G. H. is false and unreasonable, but it remains true that a very large majority of white ouths entertain the idea that they have ended to the lower level of the social scale, if they undertake hard labor for a livelihood, that has heretofore been performed by Chinamen. Chinese labor, in short, is a withering influence, and it has done for California youth precisely what slave labor did for Southern youth—it has debased it. Of course this sentiment of the disreputableness of manual labor cannot endure. Our youths must go to work and the first thing to be done to secure that end is to cut off the Chinese labor supply by rigid restriction, and then, as rapidly as can be done consistently with rapidly as can be done consistently with the condition and preservation of our in-dustries, supplant those that are now in Restorer, Santa Abie, an invaluable prepaSENATOR MILLER.

High License in Utah.

J. B. Hopkins, a prominent merchant of Ogden, who is in the city, was asked yesterday by a representative of the Record Union as to the operations of high license in Utah. He replied: "The license upon saloons and retail bars is \$900 per year, or \$75 per month, I think, in nearly all the counties of the Territory. I know of but one county in which it is less, and that is Davis county, where it is \$800 per year. All drug stores and other establishments where drinks are sold over a bar have to pay the same. ## LOCAL INTELLIGENCE.

Clunie Opera House. A large audience, the gallery being literally packed, greeted Jos. R. Grismer and where they appeared for the first time in "The World," a melodrama in eight tableaux, written by Augustus Harris, the author of the "The Lights of London," "Silver King," "Hoodman Blind," etc. It deserves to be classed among the finest performances of the kind ever presented to a Sacramento audience, and this is but only giving the credit due to the local managers, and Mr. Grismer and his capable company. Mr. J. R. Wilkins, the scenic artist, prepared five complete new settings for the plays—all gems of scenic art—no-tably "The Steamship Deck," "The Raft in Mid-Ocean," and the "Lunatic Asylum," which were received by the audience with round after round of applause. The play is essentially melo dramatic, and treats with the endeavors of three villainous conspirators to cheat the hero of his for-tune. Mr. Grismer made the leading chartune. Mr. Grismer made the leading character a complete success, he being called before the curtain and cheered to the echo, after the struggle with the iunatic-keepafter the struggle with the junatic-keepers. Miss Phobe Davies, as Mabel Huntingford, the cast-off wife, played with that entire absence of individuality so essential to success, and received her due share of the applause for her graceful rendering of an ungrateful part. Brady, as Moses Jewell, the Hebrew conspirator, furnished the comedy of the play admirably, and his localisms were happy and received with great merriment. Geo. Webster, as Harry Huntingford, portrayed the villainy of the younger brother excel-lently. Mrs. Charles J. Edmonds, as Martin Bashford, was excellent, and Sam Stevens and Lola O'Connor rendered valuable support, and Viola "Fletcher," a little Sacramento girl, played Ned Owen with striking precocity. "The World" is on for a week, and will surely draw full houses. It is a novelty and a surprise, and is proba-bly the best thing Mr. Grismer has given here. According to the Signal Service reports vesterday the barometer was falling quite o'clock last night it had reached the Sacramento valley. It must have traveled from Roseburg, Or., in a southeasterly direction at a rate of twenty-five or thirty miles per hour to have reached this vi-cinity so soon. Generally speaking, storms of a rapid easterly movement do not remain long over one place. They generally leave some moisture, in the shape of rain, or sometimes nothing but clouds appear, and soon pass away. At 7 o'clock last night the barometer was falling from Olympia to San Diego, accompanied by a rising temperature, southerly winds and light rain. In the past 24 hours there was .03 of an inch at Red Bluff, a sprinkle at Sacramento, .05 of an inch at San Francisco and none at any other Signal Service point.

The municipal election in this city to-day

for. However, there are still enough interests to be looked after to make matters

The main fight of the day will be non-partizan, neither of the political parties having been willing to identify itself with the question of high or low license. Consequently, there will be at each polling place a number of workers having no other interest than to secure votes for or against the measure, and they will work with a will. Voters who prepare their tickets before visiting the polls should see to it that their ballots give an expression for or against the proposition, and not leave both of the words "yes" and "no" unerased. The high license men have issued a flood of little dodgers, reading "High license is low taxes;" 250 gin-mills — 125 too low taxes;" "250 gin-mills — 125 too many;" "1 saloon to 16 voters — too many;" "Whisky has hit you, one way or another. Here's a chance to strike back

once for luck. Try it." The anti-high li-cense men have been busily engaged form-ing a strong organization, and are said to have collected a good-sized fund, to be used where it will do the most good. The political contest commences with the selection of a Second Trustee. There

are four candidates—John Ryan, Republican, and William McLaughlin, Democrat; can, and William McLaughlin, Democrat; and John Rider (Rep.) and H. B. Nielsen (Dem.), independent. Until a day or two ago the air was full of rumors of people who were going to "jump the ticket," some of them being Republican jumpers and the others Democratic, and it looked as though Sacramento would enjoy a full circus of high and low kicking, flopping and tumbling on election day. A change has come over the aspect of affairs, however, and the two parties will draw their lines much Phoebe Davies, supported by their fine com-pany, at the Opera House, last night, closer to-day than was expected. The Republican managers are especially confident, and will make every effort to achieve success for the entire ticket, because of the effect it will have upon the fall election.

The fight for Chief of Police, in which there were originally four participants, has narrowed down, through the withdrawal

of Messrs. Stevens and Woods, independ ent candidates, to the regular nominees, O C. Jackson (present incumbent), Republican, and H. F. Dillman, Democrat.

There are but two candidates for Fire Commissioner—John Conran (present in-cumbent), Republican, and L. B. Berck,

out the city yesterday afternoon and last The people of Sacramento will be called upon at the coming election to do more than decide who shall be Second Trustee rapidly in Oregon at noon, accompanied by or City Attorney or Chief of Police. Many southerly winds and light rain, and at 7 zealous people, among them the bestknown of our citizens, have been for some time fomenting a quiet agitation of a proposition to raise the licenses of a certain class of our business men to a figure which | Wilson did. would surely be ruinous to some and a hardship to many others. Indeed, if the voters of the city determine to adopt the easy matter to count beforehand the damage that will inevitably ensue. No one will deny the advantage to law and order of a proper regulation of the liquor traffic. It is quite possible that everything that can be done in that direction has not been effected. But that is not saying that the way to do it is to impose a tax so heavy that many of our citizens would be unable to stand under it. It seems a little strange that, while it is being seriously considered by the leading minds of the country whether a total abolition of the Federal taxes on liquors would not be the best

It is expected that the dosing of the "dives." But it is not

The above article is copied from the Sunday Leader of February 28th. We fully concur with the opinion expressed therein. We sincerely hope that every voter who has the interest of our city at heart will see that the words, "For High License—Yes," are scratched, and that only the words, "For High License—No," stand at the bottom of the ticket. Let us all give a helping hand to defeat this unjust and injurious proposition by an overwhelming majority.

The Railroad War.

San Francisco, March Sth.—There was no change in the railroad situation to-day, beyond the fact that the Atchison, Topeka and Santa Fe and Atlantic and Pacific roads fully met the reduction in west-bound freight rates made by the Samset route on Saturday. Freight rates over the rival lines are the same both East and West. Passenger rates were the same as on Saturday. One of the demoralizing effects of the rate war, as far as business is concerned, is now being felt, it is said, in this city. When rates were put down, wholesale merchants here put in a full stock of spring goods, and have in most wholesale merchants here put in a full stock of spring goods, and have in most cases all that they can buy. In consequence, Eastern wholesale dealers can find no customers among the San Francisco houses, and are therefore sending on large no customers among the San Francisco houses, and are therefore sending on large quantities of goods which are being placed in the hands of commission merchants here. These commission men, not being able to sell to wholesale houses, are looking to the retail trade and supplying retail dealers with goods usually bought of local wholesale houses. In consequence, the trade of San Francisco wholesalers is likely to suffer considerably if the rate war continues much longer and allows New York houses to overrun the market with goods placed in commission houses. It is not believed that the evil is very great as yet, but the new method of placing East-ern goods on sale has, it is affirmed, been

inaugurated and is likely to become a demoralizing influence. PACIFIC MAIL TAKING A HAND. San Francisco, March 8th.—On the 14th of last January, Colonel Archibald Wason, while stepping off a moving car of the Union-street line, slipped, and his right leg, being caught by one of the wheels of the car, was crushed. It was thought that the leg could be saved, and everything that could be done to that end was done, but it appearing that it could not be saved, the jured limb was amputated yesterday.
